Likewise, new registration papers being sent by a breed association will not change the status of the disqualified animal. Only county issued, five-digit ear tags and 15 digit 840-RFID tags will be permitted. All other ear tags will be removed during the check-in process.

## 4-H Market Steer Qualifications

- Beef steers will be shown by breed (including crossbred and other breeds) and according to declared weight. 4-H members need to hand carry registration papers for steers to scale for confirmation of ownership against enrollment form. The minimum declared weight for steers will be 800 lbs. There will not be an upper weight limit for 4-H steers. Beef steers whose weight increases by more than 5% from the declared entry weight to the show weight will be disqualified.
  - The breed classification/sift committee, veterinarians/department staff reserve the right to mark any animal(s)/animal(s) paperwork for a weight sift to enforce minimum weight requirements, failure to meet minimum weight requirements may prohibit an animal from showing.
- Dairy beef steers will be listed by declared weight only (not breeds).

- a. The breed classification/sift committee, veterinarians/department staff reserve the right to mark any animal(s)/animal(s) paperwork for a weight sift to enforce minimum weight requirements, failure to meet minimum weight requirements may prohibit an animal from showing.
3. The champion dairy beef steer will automatically qualify for the Indiana State Fair Celebration of Champions Award.
4. There will be a maximum of 10 steers per class.
5. All Aberdeen Angus, Belted Galloway, Charolais, Chianina, Gelbvieh, Hereford, Limousin, Maine-Anjou, Red Angus, Red Poll, Salers, Santa Gertrudis, Shorthorn, and Simmental steers shown in the respective breed shows must be registered and must present valid registration from their national registries.
6. All purebred associations reserve the right to blood type or DNA test steers exhibited in their breed.
7. All Dairy beef must be 100% Dairy blood, but do not have to be registered animals.
8. Once a market steer is selected as a breed champion, it cannot be withdrawn from the show by the exhibitor. The State Fair and/or State 4-H officials require the grand, reserve grand and breed champion beef and dairy market steers (including the champion crossbreed steer) to be "harvested". Exhibitors of breed champion market steers, not selected for the Indiana State Fair Celebration Award, will receive live market value for their animal in addition to State Fair premium money.
9. **Breed Verification Screening Options-** All beef breeds (including dairy beef) may use one of the following four screening methods to ensure that steers meet the breed specifications listed in the 4-H Entry Book:
  1. Screen the steers utilizing a three-person breed classification committee (using classifiers appointed by the breed association and/or color) and require a registration certificate and a legible tattoo that is identical to the tattoo listed on the animal's registration paper. The Charolais, Hereford and Red Angus breeds will use this method.
  2. Screen the steers utilizing a three-person breed classification committee (using classifiers appointed by the breed association) and not require a registration certificate. The breed using this method is: Dairy beef. Dairy Steers/Feeder Steers sifted by screening committee will be eligible to show in a class by themselves but not eligible to receive premiums or show for champion.
  3. Require a registration certificate (that meets the breed's requirement for breed purity) for each steer and a legible tattoo identical to the tattoo listed on the animal's registration paper. Under this option, the departmental screening committee described previously would not screen steers for visual markings. The breeds using this method are: Chianina, Red Poll, Shorthorn, and Simmental.
  4. Require a registration certificate (that meets the breed's requirement for breed purity) for each steer and a legible tattoo identical to the tattoo listed on the animal's registration paper. Additional screening of steers for breed purity or paternity requirements (i.e. must be sired by a registered Limousin bull) would be accomplished using a form of biological testing (i.e. blood testing or DNA fingerprinting using blood or hair samples). Under this option, the screening committee described previously would not screen steers for visual markings. Under this option, the cattle barn Superintendent would disqualify a steer upon receiving notice that the animal in question had failed to blood type to the requirements of the breed association involved. The breeds using this method are: Angus, Gelbvieh, Limousin, Maine-Anjou, Santa Gertrudis and Shorthorn, Belted Galloway.

## 4-H Heifer Qualifications

### Carcass Program Terms and Conditions

**Show Manager-** Wayne Downey (812) 546-5073 or (812) 603-0237(c), Matt Claeys (765) 494 - 4834  
[mclaeys@purdue.edu](mailto:mclaeys@purdue.edu)

Enter all carcass animals under 403-CR-1.

- The 4-H beef carcass contest is available for voluntary participation by those 4-H members who are eligible for and participate in the live portion of the 4-H Beef show at the State Fair. (If there is no packing company available at the time of the carcass contest, the program will be cancelled.)
- All those participating in the 4-H carcass program will be assessed a non-refundable entry fee of \$15 when steers are weighed-in at the Indiana State Fair. The Indiana State Fair Beef Carcass Show COOL/Prohibited Feed and Antibiotics Affidavit will be completed at that time. The following terms and conditions apply to the 4-H beef carcass contest:
  - All carcasses will be evaluated for U.S.D.A. quality and yield grades.
  - All cattle and carcasses must pass U.S. Government inspection. Carcass value will be based upon quality grade, yield grade, carcass weight, and packer grid parameters.
  - Carcass data will be sent to the exhibitors by the Purdue State 4-H Office soon after the steers are harvested.
  - The executive committee will interpret all terms and conditions and will make decisions on any questions not

covered by the terms and conditions.

- e) The Country of Origin Labeling (COOL) affidavit must be completed and submitted for all animals entering the carcass program. Any violations to this and plant restrictions is at the expense of the exhibitor.
3. Only beef steers that weigh 1,000 to 1,550 (live weight) and dairy beef that weigh 1,000 to 1,650 lbs. (live weight) and less than 58" tall at hip will be accepted. For animals that weigh slightly under the minimum weight or over the maximum weight, one (1) immediate re-weigh will be allowed.
  4. 4-H members must indicate at State Fair weigh-in time their wish to nominate market steers for the carcass program. Withdrawals must be made prior to the beginning of the 4-H market steer show. If more than the allowable number of steers are nominated, the market steers will be selected by the 4-H beef show manager from the eligible nominees. The number of steers allowed to go to the carcass contest will be announced at the time of weighing. The 4-H steers selected as breed champions or reserve breed champions will be eligible for the carcass contest. One (1) animal will be selected for each 4-H'er before a second is selected for any 4-H'er. The remaining animals will be determined by first withdrawing those animals with the lowest rates of gain.
  5. Urine, saliva, tissue, and/or blood samples may be taken from any or all contest animals at the discretion of the beef department staff and/or fair officials.
  6. Carcasses will compete within the same breed classification as they did in the live market steer show.
  7. The first place carcass from each breed, regardless of number of entries in each breed classification, will be determined if any qualify, as well as the selection of an overall champion and overall reserve champion carcass. The respective second place entry behind the overall champion will compete for overall reserve champion honors.
  8. In order to be named 1st or 2nd place carcass in a particular breed, the carcass must grade a minimum of low choice and have less than a 4.00 yield grade and must have an ADG of 2.0 pounds or greater.
  9. Carcasses will be ranked - 75% on comparative carcass value and 25% on carcass gain per day on test. (The test period is from the date the animal is weighed in the county until the day of weigh in at the Indiana State Fair.)
  10. Participants will be paid for their animals on the basis of the hot carcass weight and the value of the carcass.
  11. Transportation costs to get the 4-H carcass steers from the Indiana State Fair to the designated packing plant will be paid by the Indiana State Fair.
  12. Note: All steers entered in the State Fair 4-H Beef Carcass program must be dehorned.
  13. 4-H carcass program premiums:  
Grand Champion carcass large banner \$250  
Reserve Grand Champion carcass medium banner \$100

The premium assistance provided by the American Angus Association for participation in this show is in addition to the premiums offered by the show itself. The Association contributions will be distributed by the Indiana Angus Association.

A minimum of fifteen (15) head must be shown in the junior Angus heifer classes to receive American Angus Association premium participation. The show is not required to have all classes to be eligible for premiums.

To be eligible for Association premiums, the entries must be recorded in the sole name of the junior exhibitor and the issue date on the registration certificate must conform to the individual show's requirements regarding ownership.

Premiums from the Association are paid only to registered Angus cattle and only if the registration number is a part of the show report provided to the Association. Therefore, all cattle should be registered at the time of entry to make certain they receive the Association's portion of premiums. The Association does not pay on premiums offered in championship classes. An animal may only be counted one time toward the total count for premium participation by the Association.

Exhibitors must have the original registration certificate issued by the American Angus Association available for inspection at the show for each animal or another current proof of ownership issued by the American Angus Association pedigree look up. Any animal upon check-in which does not have a legible permanent identification mark (ear tattoo marks, freeze-branded marks or hot-branded marks) corresponding to the permanent identification mark on the registration certificate, is ineligible to show. Once disqualified due to an incorrect or illegible permanent identification mark, animals cannot be re-identified (tattooed/branded) and re-checked at the show.

Only one person at a time shall lead animals into the show ring.

*Exhibitors who participate in shows that accept premium monies contributed by the American Angus Association are subject to the Association Rules as found in the Breeders Reference Guide of the Association. These rules are found in Part 2; Association Rules. The rules relating directly with the exhibition of Angus cattle are Part 2: Association Rules; Rule 800 Series; including Rule 800 - 810. These rules can be found at [www.angus.org](http://www.angus.org).*

Altering the conformation and/or appearance of an animal for exhibition is prohibited. This includes the covering of white skin, false tail heads (or use of any false hair), with the exception of false tail switches. The use of graphite, powders, hemp or other similar substances used externally are also prohibited. Other prohibited products include those used internally such as steroids, illegal or unlicensed pharmaceuticals or artificial filling. Any animal found to be in violation will be barred from showing.

At any show for which the American Angus Association appropriates funds toward the payment of premiums, no exhibitors, individuals assisting exhibitors or member owners at such show shall be allowed to use any coloring agents, on any animal exhibited. The Association may adopt and implement various tests designed to monitor this prohibition, including but not limited to a "white towel" or "white glove" test. No aerosol cans or other pressurized containers will be allowed in designated make-up/line-up areas.

All animals exhibited are subject to DNA marker or blood type test to verify accuracy of parentage as covered under the Association Rules and for other testing as required by the individual show.

Authorized representatives of the Association have the authority to enforce the rules set forth herein as well as in the Association Rules, including the barring of a registered animal from a livestock show at which it is to be shown,

if there are reasonable grounds to believe a violation has occurred.
